NUTRITION TIP OF THE WEEK—FROM THE KSC FITNESS CENTERS: Does anyone know what a half a cup of fruit looks like? What about a serving of meat? Well, here are some portion sizes that you'll understand.
A medium potato should be the size of a computer mouse.
An average bagel should be the size of a hockey puck.
A cup of fruit is the size of a baseball.
Three ounces of meat is the size of a cassette tape; 4 ounces is the size of a deck of cards.
Three ounces of grilled fish is the size of your checkbook.
One ounce of cheese is the size of four dice.
One teaspoon of peanut butter equals one die.
One ounce of snack foods—pretzels, etc. equals about a large handful.
Learning to recognize portions, with simple measures, can make it easy to judge portions whether at home or away. So why not get control by checking out the portions you choose. (TA-C2)
